Legal Credit Sweep

Leverage Your Legal Rights For Better Credit

CREDIT REPAIR TYPICALLY DOES NOT WORK

The Legal Credit Sweep provides a legal, effective, guaranteed, and no cost way to address applicable derogatory items instead of "disputing" with the credit bureaus.

Our network of Attorneys/Paralegals will prepare the documents necessary to remove applicable negative items from your credit report using fully compliant legal processes. This is NOT a credit repair program.

Anything reported on your credit must meet three criteria: (1) accurate; (2) complete; and (3) verifiable. We can leverage the Fair Debt Collections Practices Act to remove derogatory items--legally and ethically.

If the credit bureaus don't comply, you may have legal grounds to sue and collect money FROM them and forcing them to legally comply!

NO COST THROUGH A 501(c)(3) NON-PROFIT

Through a Grant we've received, you can participate at no cost by fully participating in our Free Funding Proposal campaign. By doing so, you get better credit and a minimum of $250,000 with no upfront cost!

How To Choose A Credit Improvement Resource?

Credit pull capacity. Ensure that they have the ability to pull your credit reports. If they ask you to get one or use a third party, like Credit Karma, walk away.

How is their credit? Interestingly, most "credit experts" have, somehow, bad credit.

Do they use a legal model? Ask them how many lawsuits they have filed this year. If they just "dispute", you can do that yourself.

Do NOT Pay For "Credit Repair"

Grants are available to assist individuals in improving their personal credit if their personal credit is a barrier to getting funding to start, grow, or acquire a business.

Success Stories

We have many success stories to share with you including this one from our first participant:

- BEFORE (1/21/2021):
  - TransUnion 524
  - Experian 528
  - Equifax 518
- AFTER (2/24/2021):
  - TransUnion 748
  - Experian 748
  - Equifax 734

Why Is An Attorney-Based Model Better?

- Fully leverage consumer protection laws.
- Attorneys can identify legal errors in the creditor's reporting/complaint.
- Attorneys can file a claim/counterclaim against the data furnisher.
